## Integrated Power Conversion and Power Management

The eighth edition of the biennial International Workshop on Power Supply on Chip (PwrSoC), co-sponsored by the Power Sources Manufacturers Association (PSMA) and IEEE Power Electronics Society (IEEE PELS), will be held at Leibniz University Hannover (LUH), Hannover, Germany, on September 27 thru 29, 2023.

### About the Workshop

The Workshop is the leading international forum for the discussion of the challenges and opportunities in technology, business, and supply chain, intent on advancing the miniaturization and integration of power conversion and power management solutions. The value of the Workshop has always been recognized as an event that brings together global academic and industry experts to formally and informally discuss issues to advance and commercialize power supply on chip technologies.

### Technical Program

Organized as a single-track workshop, attendees will hear world-leading experts discuss far-reaching goals and achievements in a wide range of applications from powering high-performance processors to automotive and bio-medical systems. There will also be a poster session. Interactive discussions at the workshop will bring detailed perspectives on the technological and business challenges and opportunities that can impact attendees' future business in this emerging space. In addition to a comprehensive technical program, this workshop will feature a technical tour.

### About the Venue

Founded in 1831, Leibniz University is one of the nine leading Institutes of Technology in Germany, with ~30.000 students. Named after the polymath Gottfried Wilhelm Leibniz, the university lives the spirit of Leibniz, combining global thinking and interdisciplinary research. The PwrSoC Workshop will take place in the historic main building of the university close to Hannover city center.

### Partnership Options

For the first time this year, PwrSoc-23 extends the partnership opportunities to the "Gala Dinner" and the "Welcome Reception" in addition to traditional Platinum and Gold options. Please refer to the backside of this flyer for PwrSoC23 partnership options.
